

Water Use Goal Sample Report

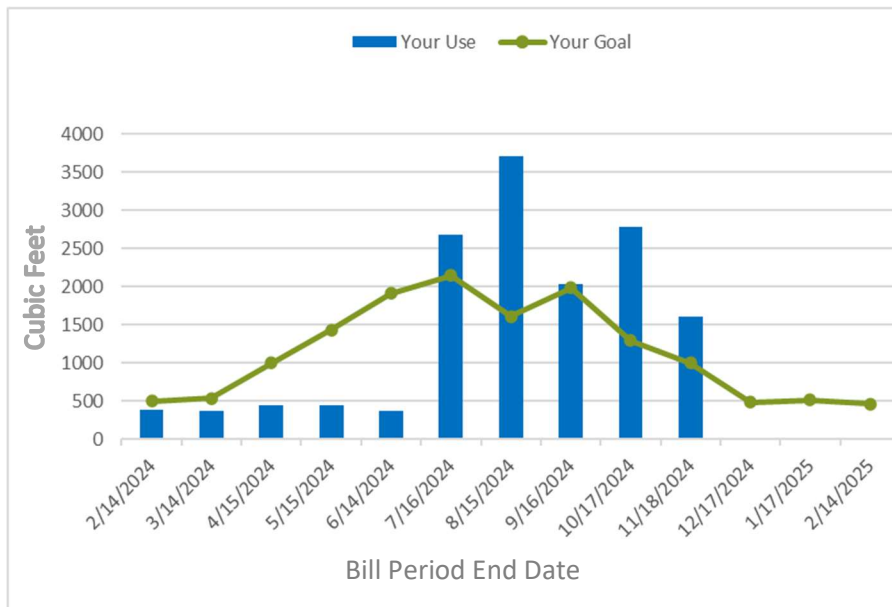

Your water use for September 18, 2024 to October 17, 2024

This billing period you were 360 cubic feet OVER your monthly water use goal. You used 129% of your goal.

The Water Use Goal for your home is based on 12.61 cubic feet for indoor use per day and 6,482 square feet of landscape area. By staying under your Water Use Goal each billing period, you are using water wisely in Colorado Springs' semi-arid climate. We appreciate your effort to contribute to the sustainability of our community's water supply.

Visit csu.org/Pages/WaterUseGoalsProgram.aspx or call (719) 668-8232 for more information.

Compare your use to your Water Use Goal

Your Water Use

Indoor use: 492 cubic feet
Outdoor use: 748 cubic feet
Inefficient use: 360 cubic feet
Wasteful use: 0 cubic feet
Total use: 1,600 cubic feet

Water Use Goal

Indoor use: 492 cubic feet
Outdoor use: 748 cubic feet
Total goal: 1,240 cubic feet

How to read this report

Your Water Use: This is your household's actual water use for the billing period and is the same consumption data on your bill.

Water Use Goal: To calculate your goal, we created a monthly irrigation water budget tailored to the size of your home's yard. Water is allocated based on vegetation irrigation needs for each billing period and is added to 130 percent of the average winter consumption from your bill.
